The Sheppey 8kW stove is a lovely addition to any larger room, with its large glass it provides a fantastic fire view, and it's easy to use with the air cooled handle.

#### Key Features:

- Air Wash System
- Air Cooled Handle
- Easy to use Air Controls
- Cast Iron Grate
- Rear and Top Convection Panels
- Suitable for a 12mm Glass Hearth

From the heart of the fire, Beltane Stoves are a company passionate about wood burning stoves, manufactured specifically for the UK market. Their durability and style makes them a lovely addition to any home, from the traditional to the most contemporary. These lovely stoves come in a matt black finish, topped off with a chrome handle that adds a splash of colour to this classic multifuel stove.

Our stoves are manufactured from tough 5mm steel; each stove is born of experience and enthusiasm for fire engineering. Designed for both wood and coal these stoves fit perfectly into any room, The large glass gives a lovely fireview, bringing the fire and heat into the room.

Beltane Stoves have painted steel bodies and incorporate modern combustion technology to deliver stoves that are easy to light and operate. Each stove is fitted with a practical and effective air wash system designed to reduce deposits on the ceramic glass. They also feature a convection rear and top plate and a push-pull air cooled handle. The air controls are intuitive, which makes adjustments to the fire simple while burning either wood or smokeless fuels. All come supplied with a branded glove which makes refuelling safe and easy.

At Beltane Stoves we test our stoves to European standards in the UK. The Beltane Chew and Sheppey have been further tested so they are suitable for burning wood in smoke control areas, due to their high efficiency levels and ability to burn wood cleanly. This makes them ideal for country or city dwellings, heating your home as well as your heart.

This year the classic Chew and Sheppey Beltane Stoves models are joined by a contemporary range of stoves from Danish company and manufacturer, Danburn, for whom Beltane will be acting as distributor. These modern woodburning stoves from Denmark are a great addition to the traditional Beltane Stoves range, offering more choice and versatility when choosing a woodburning stove.

# CHEW 4.6 kW

The Chew 4.6kW stove is the flagship of the Beltane Stoves range. The large glass creates a great fireview, that would make this stove a statement piece for any room.

RØMØ

MANDØ

LÆSØ

SAMØ

Beltane Stoves are proud to offer Danburn, a high quality Danish designed and manufactured contemporary range of woodburning stoves.

Imported by Beltane, there has been a long relationship between the two brands, and the Danburn range offers something more modern against the traditional Beltane models.

Named after some of the lesser known islands surrounding Denmark, the Danburn range comprises of four stunning contemporary wood burning stoves, Læsø, Samsø, Mandø and Rømø.

Fantastic and modern these stoves are easy to use and tested to EU standards for efficiency, these wood burning appliances will make any house a home.

## Map of Denmark

LÆSØ

SAMSØ

With impressive efficiency figures, these stoves are clean burning and come equipped with air wash technology to keep the glass clean whilst the fire is burning.

The Rømø and the Mandø have the same efficient fire box and large glass area, but with the two different base options, the versatility of this stove makes it ideal for a modern or traditional home setting.

Contemporary and sleek, the Læsø and the Samsø both offer a log storage area under the stove makes refuelling easier and brings the fire view up into the room. The Læsø even has a warming shelf built in, for anything from bread to pasties. Both perfect for the modern home and family.

Beltane Stoves and Danburn are both covered by a 2 year guarantee against manufacturing defects. The guarantee covers the stove body but does not cover damage caused by faulty operation such as overheating of the stove. The guarantee does not cover damage to replaceable parts such as glass or firebricks.

Beltane and Danburn Stoves have a policy of continuous improvement and reserve the right to change specification without prior notice.
