

## The LaNordica Fortuna stove

This is an absolutely stunning stove. Beautifully clean lines, hand glazed ceramic panels, a huge curved glass window to watch the fire through – there is no other stove like this.

It doesn't just look elegant, it also burns really well. The glass panel stays clean throughout the burning cycle and, since it can be swivelled through 90 degrees, you will always have a clear view of the fire wherever you are sitting.

### TECHNICAL DETAILS

Height:	1297 MM
Width:	526 MM
Depth:	505 MM
Heat Output:	7kW
Efficiency:	80.4%
Fuel:	Wood

Finish: Cast iron door, hand glazed ceramics in bordeaux red or pure white.

Printed using vegetable inks on uncoated Cyclus recycled paper.  
When you have finished with this please recycle or use it to light your stove with.

## The LaNordic a Panorama stove

The Panorama has the same timeless elegance as the standard For tuna but gives you an even better view of the fire with its extra window on both sides. The main door opens with a single handle to let you put more logs on, the bottom door slides open by simply giving it a slight push.

Functionally this is a superb piece of design and visually it manages to combine clean contemporary lines with the Italian air for effortless elegance.

Easy to light and totally controllable, the For tuna will throw a beautiful warmth and light into any room.
